## **DETAILED ACTION**

## Election/Restrictions

- 1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - Claims 1-17, 26-40 and 49-52, drawn to apparatus and method for reducing DC offset in a communication channel, classified in class 375, subclass 346.
  - II. Claims 18-25, and 41-48, drawn to apparatus and method for gain control in a communication channel, classified in class 375, subclass 345.
- 2. Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different modes of operation and different functions.
- 3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and the search required for Group I is not required for Group II restriction for examination purposes as indicated is proper.

- 4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
- 5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
- 6. The IDS filed on 9/23/02 indicated that there were two CD Rom having electronic copies of all the references cited on the PTO FORM-1449. However, there is no CD Rom in the file. It is respectfully requested that in response to this Restriction Requirement, Applicant provides the Examiner the copies of those CD Rom so that the cited references could be considered. Possible misplacing of the original CD Rom is regretted.
- 7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to DON N VO whose telephone number is (703) 305-4885. The examiner can normally be reached on 8:30AM-5:00PM, Tuesday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, CHI PHAM can be reached on (703) 305-4378. The fax phone numbers for
